

# TRIKE TIPS

Was the naming of The Safety Bicycle a Sales Job?

**A First -** For us, Vancouver Island & possibly Canada & North America is a new Performer Delta Trike sold right here in Ladysmith, BC. We hope to get some follow up news on this offering to the Delta World & the owners impressions plus maybe he will bring it out to one of our events for everyone to see.

**We're Going Fat -** and it has nothing to do with being isolated at home & eating too much. We're going Fat Trikes. Over the past couple of years we often get comments from people walking by like, "They look like fun." or "Are they as comfortable as they look?" Sometimes we would even get asked if they were safe, fast, expensive & where could they try one? So this year after getting feedback from Group Riders on some of our rides & seeing as the current trend is towards Fat Trikes, I will be putting 2 Power Assisted Fat Trikes up for Rentals. This will give non-owners the chance to join in the fun & see if Trike Ownership & Group Rides is something they would enjoy. I am buying 2 Trident Terrain 20's as I feel this is a trike that is easily adaptable to riders of different heights & weights. It is also an easy trike to get comfortable with for a new rider as it is very stable. Now if you have out of town guests visiting, you can always drag them along for a group ride. That'll teach 'em for visiting! :) Rates start at \$75. for 4 hours & will include set up, instruction, snacks & the 3-4 hour tour.

## For Sale

We're only on our 3rd. Issue & have sold a trike in each of the previous issues. This month we have 2 premium ICE Adventures for you to consider. One has Power Assist & one has Suspension. Both owned by 2 little old ladies that only used them on Sundays - REALLY! Super clean units.

**Please Note - Both Trikes are currently under reserve from interested buyers.**

## COMING EVENTS

All Group Events are on hold obviously until this mess with using people as Lab Rats is over. I like to remain Optimistic as the alternative is to just give up. Maybe this will be over by June.

**Here's what we have planned for this Season -**

An Educational Demo of the different types of Power Assist available.

An Overnight Trip to Ganges. You can do the circle route or return by same day ferry home.

Lochside Trail to The Victoria Air Museum.

Another Day Trip from Ladysmith to Chemainus.

Fun Day with the New Fat Trikes & De-Bugging The Power Assists.

Trike Tips is published by Trike Adventures 4-6 times per year as a source of information & products available to Recumbent Trike enthusiasts on Canada's West Coast.
